Comet Control Panel

COMeT

Comet Control Panel is a range of gas detection system control panels that are easy to monitor and handle. These control panels can cater to any size of system, from single zone F&B outlets to multiple zones of apartment units and shopping malls. They can be customized according to your requirements.

The Comet Control Panel features visual alarm indicators, audible acoustic buzzer and relays which control solenoid valves. It can receive Fire Alarm and Wet Chemical signals, and make contact with Building Management System. This range of control panels are compatible with gas detectors and solenoid valves from Comet and Tecnocontrol.

Basic Control Panel

Metal Control Panel

Plastic Control Panel

SPECIFICATIONS

No. of Zones	1 – 4	5 – 8
Dimension (w) x (h)	8" x 10"	10" x 12"
Body Material	• 1.5 mm mild steel sheet • Plastic	
Finishing	Epoxy powder coated	
Ingress Protection	IP65	
Power Supply	230 Vac	
Gas Detector Power Supply	• 203 Vac • 24 Vdc • 12 Vdc • Dry contact	
Gas Detector Input Signal	• 203 Vac • 24 Vdc • 12 Vdc • Dry contact	
Fire Alarm Input	• 24 Vdc • Dry contact	

Solenoid Valve Output	• 203 Vac • 24 Vdc • 12 Vdc • Dry contact
Audible Alarm	Acoustic Buzzer
Indicators	On ● Green Zone Indicator ● Red Strobe Light ● Red
Add-on Options	• Step-down transformer (12 Vdc / 24 Vdc) • Mute button • Reset button • Emergency button • Solenoid valve indicator • Fire alarm indicator
