

## Our New High Reliability Gas Detector - SE192K Connect It With Central Unit ( 1- 3 Zones ) - SE 194K

New gas detector that could provide the gas concentration level by connecting it to Tecnocontrol Central Unit

**SE194K**  
(CONTROL PANEL)

**SE194K + SE192K**

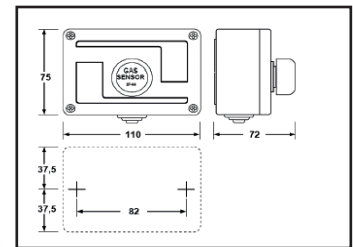

**SE192K**  
(GAS DETECTOR)

Approved By :  
 Suruhanjaya Tenaga  
Energy Commission

Dimension	
Width	: 75 mm
Length	: 110 mm
Height	: 72 mm

Technical Specification	
Power Supply	12 Vdc
Output	4 - 20mA
Measuring Range	0 - 20% LEL
Sensor	Catalytic
Protection Level	IP44

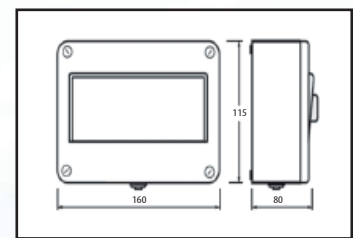

**SE192K**

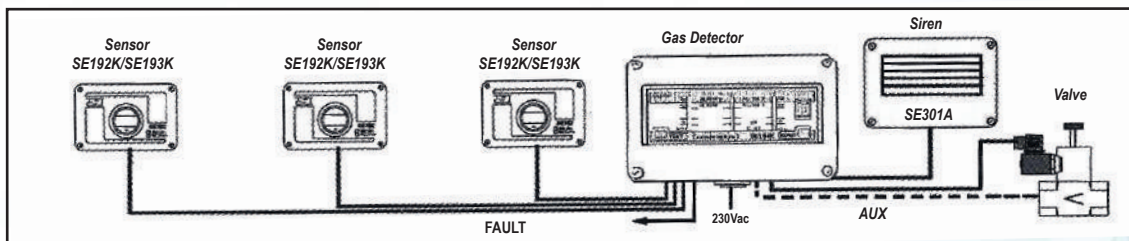

Dimension	
Width	: 115 mm
Length	: 160 mm
Height	: 80 mm

Technical Specification	
Power Supply	230 Vac & 12 Vdc
Alarm Level	10% - 20% LEL
Measuring Range	0 - 20% LEL
Protection Level	IP54

**SE194K**

Example of SE 194K Central Control Panel link-up with 3 units SE 192K gas detectors, siren and solenoid level.

### Features

- Can be connected up to 3 detectors
- LED bar indicate gas concentration level for each detector
- Link with solenoid valve & siren
- TEST & RESET function buttons
