Inlet Connection

Pressure	20mm
Capacity	28mbar
	1.5kg/hr

Safety Features

Auto Cut Off
The Regulator will automatically cut off gas supply when hose is accidentally disconected.

Child-Safe Lock
Once installed, the regulator cannot be removed without pressing the release button to ensure regulator remains in secured position.
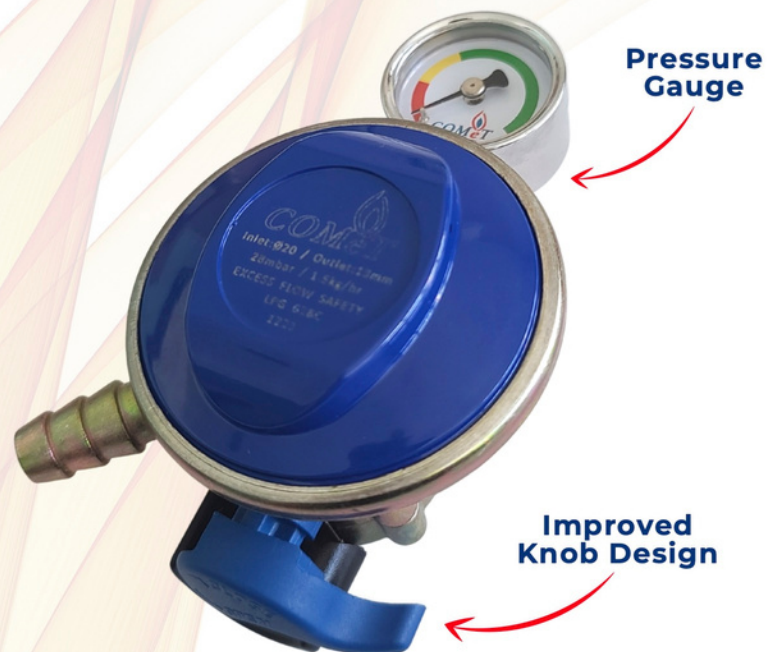

Enhanced Grip
A tight grip will securely lock the regulator in place, reducing chances of leakage.

Pressure Gauge
To indicate gas amount in cylinder.

Suitable for Malaysia
Can be fitted on standard Malaysian gas cylinder.
